What is the Policies feature?

If you select the “Policies” tile from the dashboard you can set up options to apply a policy (pdf document) for a user to read and acknowledge as part of their site attendance.

How do I add a policy to the system for all users to view and acknowledge (a global policy)?

Select the Policy tile in the admin dashboard.

Go to “Policies for all sites”. Type the title of the policy.

Select “Choose file” to add the policy file. Then select “Upload”.

The policy will then be shown below. Users will then see this policy as part of their site sign in to every site.

How do I add a policy to view and acknowledge but only for a certain site not all sites (a site specific policy)?

Select the Policy tile in the admin dashboard.

Go to “Policies for [SiteName]”. Type the title of the policy.

Select “Choose file” to add the policy file. Then select “Upload”.

The policy will then be shown below. Users will then see this policy as part of their site sign in for this site.

Can I have a policy that is shown for all site visits but also one for a particular site (a global policy and a site specific policy)?

Yes, select the Policy tile in the admin dashboard.

Go to “Policies for all sites”. Type the title of the policy.

Select “Choose file” to add the policy file. Then select “Upload”.

The policy will then be shown below. Users will then see this policy as part of their site sign in to every site.

Then

Go to “Policies for [SiteName]”. Type the title of the policy.

Select “Choose file” to add the policy file. Then select “Upload”.

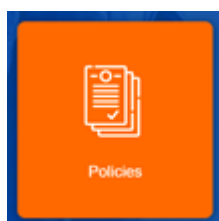

The policy will then be shown below. Users will then see this policy as part of their site sign in for this site.

The screenshot displays a web interface for managing policies. On the left is a vertical orange sidebar with various icons. The main content area has a light blue background with a faint silhouette of a person. It is divided into two sections:

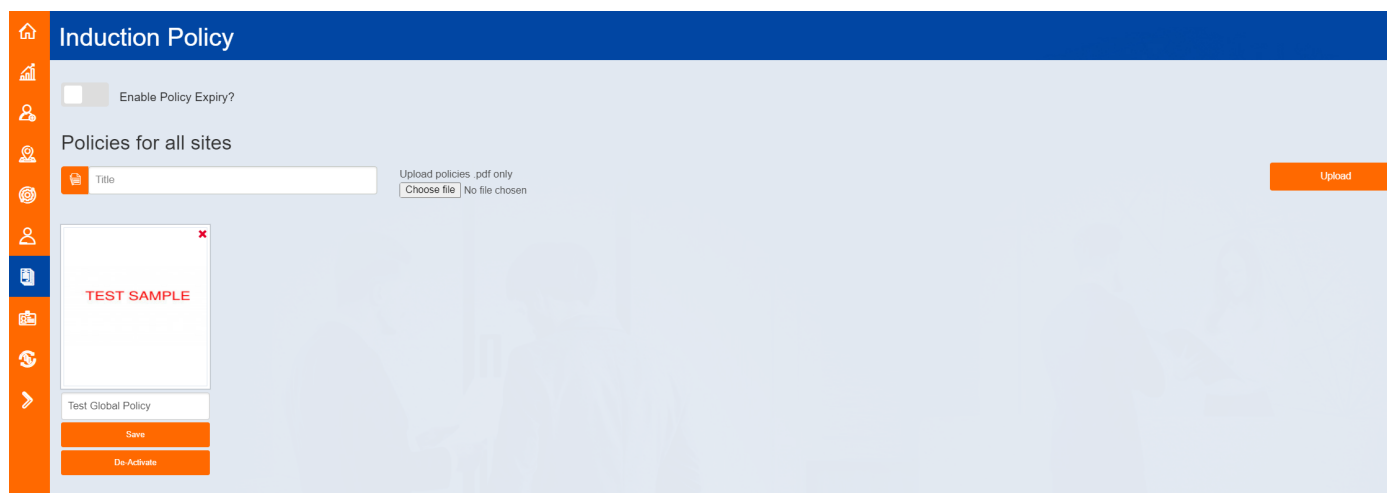

- Policies for all sites:** This section includes a toggle switch labeled "Enable Policy Engraving?". Below it is a text input field for the title, followed by a "Choose file" button and a "No file chosen" message. To the right of the input field is a "Generate" button. Below the input field is a preview window titled "Generating the preview of the Policy" which shows a "Test Global Policy" and buttons for "Save" and "Go Back".
- Policies for TIKS Office:** This section follows a similar layout with a title input field, a "Choose file" button, a "No file chosen" message, and a "Generate" button. The preview window below it is titled "TEST Site Policy to acknowledge" and shows a "Test Site Policy" with a "Save" button.

How do I de-activate or re-activate a policy?

Select the Policy tile in the admin dashboard.

You will see the below page.

A screenshot of the "Induction Policy" admin page. The page has a blue header with the title "Induction Policy". On the left is an orange sidebar with various icons. The main content area is light blue. At the top, there is a toggle switch for "Enable Policy Expiry?". Below this is a section titled "Policies for all sites". It contains a form with a "Title" input field, an "Upload policies pdf only" button, and a "Choose file" button. To the right of the form is an "Upload" button. Below the form is a preview window showing a "TEST SAMPLE" document. At the bottom of the preview window are "Save" and "De-Activate" buttons.

To turn off (de-activate) a policy but not delete it, select “De-Activate” on the policy. This will turn off the policy being shown to users but not delete it. It can be reactivated by clicking “Re-Activate”.
