

What does ID mean?

This column shows the unique visit ID specific to that visit for that visitor. This is what is used to generate the QR code on the badge that the visitor receives.

The visitor can use this ID to sign out quickly from one of the kiosks/tablets.

If you have access to the TIKS Admin interface, you can view the Signed In Report. The report displays a list of visitors currently on site, including their photo, details, host, time, visit induction, ID, and action buttons.

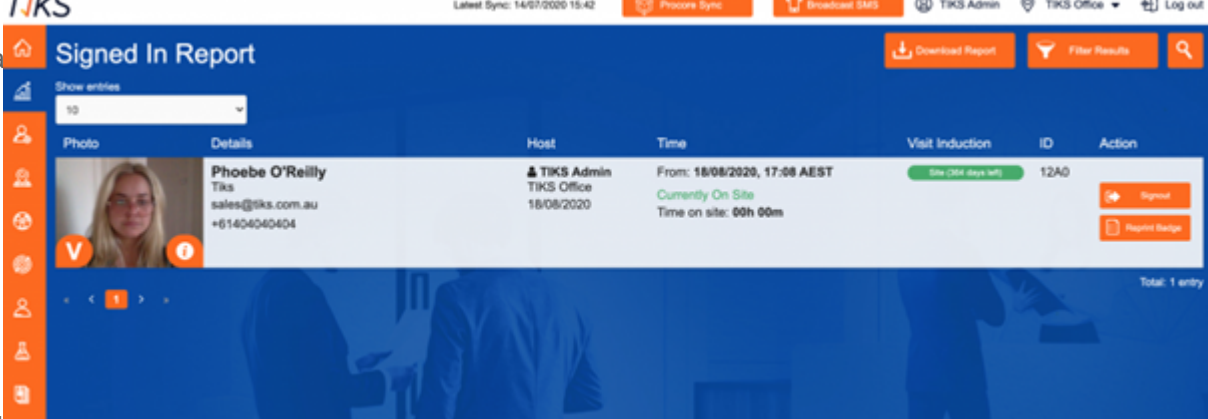

Photo	Details	Host	Time	Visit Induction	ID	Action
