

# What does Visit Induction mean?

The "**Visit Induction**" column shows whether that visitor has a valid induction. If it's valid, it will highlight in green with the number of days left until the induction expires in brackets.

Induction validity periods are determined in the Site Location settings.

If the induction has expired it will say "Expired" in red text and the user will be shown the induction slides when they next sign in at any kiosk/tablet. If the user has been pre-registered and they have not yet completed a site induction, it will say "Incomplete".

The screenshot displays the TIKS 'Signed In Report' interface. At the top, there's a header with the TIKS logo, a 'Latest Sync' timestamp of 14/07/2020 15:42, and buttons for 'Proxify Sync', 'Broadcast SMS', 'TIKS Admin', 'TIKS Office', and 'Log out'. Below the header, the 'Signed In Report' section includes a 'Show entries' dropdown set to 10, and buttons for 'Download Report', 'Filter Results', and a search icon. The main table lists user entries with columns for Photo, Details, Host, Time, Visit Induction, ID, and Action. The first entry is for Phoebe O'Reilly, a TIKS Admin at the TIKS Office, who signed in on 18/08/2020. Her 'Visit Induction' status is 'Site 084 days left' in green, with ID 12A0. Action buttons for 'Signout' and 'Reprint Badge' are visible. A pagination bar at the bottom shows 1 entry out of 1 total.
