

# What does Visit Induction mean?

The "**Visit Induction**" column shows whether that visitor has a valid induction. If it's valid, it will highlight in green with the number of days left until the induction expires in brackets.

Induction validity periods are determined in the Site Location settings.

If the induction has expired it will say "Expired" in red text and the user will be shown the induction slides when they next sign in at any kiosk/tablet. If the user has been pre-registered and they have not yet completed a site induction, it will say "Incomplete".

The screenshot displays the TIKS 'Signed In Report' interface. At the top, there is a navigation bar with the TIKS logo, a 'Latest Sync: 14/07/2020 15:42' timestamp, and buttons for 'Process Sync', 'Download SMS', 'TIKS Admin', 'TIKS Office', and 'Log out'. Below the navigation bar, the main content area is titled 'Signed In Report' and includes a 'Download Report' button, a 'Filter Results' button, and a search icon. A 'Show entries' dropdown menu is set to '10'. The main data area is a table with columns: Photo, Details, Host, Time, Visit Induction, ID, and Action. The table contains one entry for Phoebe O'Reilly, who is currently on site. Her visit induction is valid, indicated by a green bar and the text 'Site 094 days left'. The table also shows a 'Total: 1 entry' at the bottom right.
